Amtd. Dated May 31, 2006
Reply to Office action of April 14, 2006

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of claims:

Claim 1 (currently amended). A rotatable body for printing machines, the rotatable body comprising:

a circumferential surface provided with a surface structure and formed of a nonmetallic material, said circumferential surface carrying a liquid and being a roller selected from the group of rollers consisting of a slip roller and a ductor roller, said surface structure being irregularly structured, said surface structure being formed of slats, and an arithmetical average height of the surface structure, determined by the slats, being at least 12 microns.

Claim 2 (previously presented). The printing machine according to claim 10, wherein said roller serves for carrying one of ink and emulsion.

Claim 3 (previously presented). The printing machine according to claim 10, wherein, during printing, said roller is in permanent engagement with two other rollers.
